1. What are your expectations from this Co-Extra training course?
2. Have you participated in similar training courses before? If so, which ones?
3. How the proposed topics address your information need on the subject?
4. Among the proposed topics, which one is more relevant for you?

5. According to you, which other topics should be covered?

6. Are you interested in gathering practical experience on GMO detection? Why?

7. Do you have already some experience in GMO detection?

8. If you are involved in laboratory work, which techniques are you already familiar with?

9. Please, indicate whether you prefer to attend the training course as observer.

Please, note that Co-Extra budget will cover all participants' and observers' costs (travel, accommodation, daily allowances).
